II. Additional Information about the Proposed Consent Decree

The proposed consent decree would fully resolve *Our Children's Earth Foundation. v. Regan*, No. 20-cv-8530 (N.D. CA.) (the Litigation). The Litigation claimed that CAA section 110(h)(1) required EPA to periodically publish comprehensive documents setting out the States' SIP requirements and also required EPA to periodically publish notice in the Federal Register of the availability of such documents. The Litigation also claimed that EPA had failed to comply with the requirements of CAA section 110(h)(1). Under the terms of the proposed consent decree, no later than December 31, 2021, EPA will assemble and publish online on EPA-managed or controlled websites the "SIP Rules" for all States, except for California, Connecticut, North Carolina, Wisconsin, Puerto Rico, and the U.S. Virgin Islands. The information published by that date will include SIP Rule revisions and submittals finally approved by EPA and published in the *Federal Register* on or before November 30, 2021. In addition, under the terms of the proposed consent decree, no later than September 30, 2022, EPA will assemble and publish online on EPA-managed or controlled websites the SIP Rules, including SIP Rule revisions and submittals finally approved by EPA and published in the *Federal Register* on or before August 31, 2022, for every State. The proposed consent decree does not require EPA to publish "SIP Plans," consisting of various nonregulatory or quasi-regulatory plans or material, as distinct from SIP Rules. The proposed consent decree also provides that, not later than November 30, 2022, EPA shall submit to the Office of the Federal Register, for publication in the *Federal Register*, a notice of availability of the SIP Rules information published by EPA on EPA-managed or controlled websites. See the proposed consent decree in the docket for other terms and conditions.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that

such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

III. Additional Information about Commenting on the Proposed Consent Decree

Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2021-0725, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Do not submit to EPA's docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document. Note that written comments containing CBI and submitted by mail may be delayed and deliveries or couriers will be received by scheduled appointment only.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read

your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.
